

THE SMART PAPER MAILER FOR ECOMMERCE

MAKE A STRONG PACKAGING CHOICE FOR YOUR ONLINE BUSINESS!

e-Green is the packaging range for online shops that pay attention to the reduction of plastic packaging and that want to increase the efficiency of their shipping process.

e-Green mailers are designed to meet both challenges. They are made of strong kraft paper and thus recyclable in the waste paper stream. As the bags adjust to the content, no unnecessary volume or air is being transported.

EFFICIENT, PROFESSIONAL & STRONG!

e-Green is made from strong FSC®-certified kraft paper and thus recyclable in the waste paper stream.

Equipped with two adhesive strips and a tear perforation, this bag is ideal for ecommerce businesses. Easy to pack and close, easy to open and reclose – in case of return shipments. Consumers will appreciate the ease of it as well as the reduction of packaging waste compared to standard boxes of the same shipping class.

As consignor, you can reduce packaging material, volume, weight, and freight cost, compared to using oversized boxes.

e-Green is ideal for goods, which do not require a solid box, or which are prepacked, such as clothing, shoes, accessories, cosmetics, consumer electronics and much more ...
